Overall course rating	
9.3	
Comments	
Excellent day	Good balance of lectures and workshops
Need more courses from time to time - keep it up please	
Very well presented course,	Excellent videos
The day ran smoothly despite the large numbers-	very friendly faculty
Great to get specialist specific tips	Lots of hands on which I liked the most
Excellent course - may be a bit rushed at the lectures yet very good	
More time at the workshops	Great day overall
Lecture room too hot / need air conditioning at the centre	
Great to get familiar with scopes and new devices	
Enjoyable day full of information	Time slots very well utilised
Learnt a lot and hope can take it back to practice	
Overall found the course better than expected	
Thought the day was very well put together - very enjoyable and informative	
Self funded the course - five stars thank you	
Excellent course - will recommend it to my colleagues	
Well equipped workshops and very informative lectures	
Great to have a separate course for odps and relevant talks -thank you
