### Some Comments/ Suggestions

*Excellent Course /very well organized/should be mandatory/  
I now realize what pressure anaesthetists go through  
Excellent workshops and lecture mix / lots of variety of equipment /  
All speakers and facilitators very engaging  
very friendly faculty / Great food / real good training  
very informative/very well planned day / very interesting  
speakers/good mix of theory and lectures/loved the course  
excellent to see all equipment available/more on human factors  
I feel more confident now to help with difficult airway / handouts  
please/ excellent day for improving communication across disciplines  
Worth the trip from Plymouth / must be mandatory for all ITU staff /  
well worth it / enjoyable experience /thanks for the efforts /  
worthwhile course/ should be done more often !*
